

"ONE SIZE SAYS IT ALL"

SALON SERIES

BLACKJACK

Electro-Sport has designed and programmed the first and only true casino-style amusement video Blackjack game on the market today. A Blackjack game that boasts of all the pleasures of a game of Blackjack at the casino tables, with features like insurance, double-down, split pairs, and surrender, as well as a button to show the player the house rules. Electro-Sport's Blackjack has been a popular seller in our bar top model, and is now made available for the first time in our new economical Salon size cabinet, giving the operator the best of both worlds; the highest quality video Blackjack game to date, in a slimline cabinet style.

RAISE POKER™

Electro-Sport's Poker programs are the most extensive, versatile, and complete poker programs available today. We offer full color 512 x 224 high resolution card graphics, an operator selectable Setup Mode with over 23 options, and our latest creation, the Raise Poker™ program. Now Electro-Sport offers all of the above programs in one economical Salon size poker machine. A poker machine built to live up to the legend of our arcade size line of poker games, but made to operate where a larger arcade size game doesn't fit.

QUARTER HORSE

Quarter Horse has been one of Electro-Sport's best selling games since 1961. Now Electro-Sport adds to its popularity by packaging Quarter Horse in a smaller, more economical size. This salon size Quarter Horse has all the beauty, class, charm, and excitement of our two larger Quarter Horse games but with a price tag to fit the budget of every location.

ELECTRO-SPORT ECONOMY = LOW COST & HIGH PROFITS

ECONOMY

For Amusement Only

THE ECONOMY OF SIZE

Electro-Sport's "Salon Size" video games are designed for the operator who requires economy in space and budget. Electro-Sport's Draw Poker and Blackjack games have been popular sellers in both bar top and arcade size cabinets, however we found in many locations that bar space was too valuable to locate a game and that arcade size games are too obtrusive. Electro-Sport's design engineers created this new line of slim "Salon Size" games with these locations in mind.

THE ECONOMY OF COST

Electro-Sport has built a solid reputation on having the most attractive, original, high class video games on the market today. Now Electro-Sport is asked to make the same top quality games available in an economical package. The Salon Series allows us to offer our top of the line video programs at a minimal price.

THE ECONOMY OF SERVICE

Electro-Sport is committed to long term service to the industry; in fact it is our motto. Electro-Sport sells and services products in over twenty countries world wide. We strive to maintain a high standard of quality service; in fact Electro-Sport has installed a new TOLL FREE 800 number with a direct line to our customer service department. Dial 1-800-367-1035 for more information.

QUARTER HORSE

Imagine installing a real racetrack in your amusement area. Live horses, live odds, live action. Electro-Sport does just that and more with its amusement Salon Quarter Horse game, offering Actual Quarter Horse races, live cheering crowd, and stride by stride excitement added by the voice of the track announcer. Include the random Double Odds, and you have by far the most exciting, the most advanced, the most entertaining video amusement game in America.

RAISE POKER™

Draw Poker is a classic game of skill and challenge. Poker is a game people have enjoyed for centuries. Now Electro-Sport makes poker more exciting by adding a Setup Mode, with options no other Poker Machine can match, like: Jokers, Jacks or Aces, Double Up, Sound Option, the choice of card graphics, Maximum Play, plus Raise Poker.™ A Poker Machine without a Setup Mode, is like Cool Hand Luke without a deck of cards!

BLACKJACK

Electro-Sport's new Blackjack game is as close to casino style Blackjack as any amusement coin operated video Blackjack game can come. This new casino Blackjack includes colorful card graphics, a vivid attract mode, multiple security features, an on screen diagnostic test program, as well as an operator selectable Setup Mode. With the amount of features this game has to offer you can see why it has come to be known as the most versatile video Blackjack game available today.
